Points will be awarded by finish place.

In the event of a tie, the tie breaker process will be in order as follows:

Step 1: Whichever player placed the highest in any event.

Step 2: Whichever player won in matches where they played each other.

Step 3: In the event that there is still a tie, the money will be split between the two players.

## Match Conflicts

Due to possible over-lapping schedules. If a conflict arises, the player should come to the tournament desk and we will work around it. Also, players should be tolerant that a match may be held or rescheduled due to conflicts and both players will be notified of the change.

## Forfeit Procedure

If the assigned table is available at the time the match is scheduled to start AND no opponent is present, the player shall call a referee to the table. The referee will verbally callout the missing player's name to verify they are not present and then write down the time. At this point the missing player will be put on a 15 minute clock, and will forfeit the match if they are not there in time. Present player will have to call the referee back to the table after 15 minutes to finalize the forfeit process.

If the assigned table is not available at the time the match is scheduled to start, the player must wait until the current match in progress finishes before calling the ref to the table.
